Illustration 31: Config File	
Illustration 32: Application Descriptor	38

### 1. Document Goal

This document goal is to show how the attributes collected by the zOS DLA are presented in the Tivoli Application Dependency Discovery Manager 7.2.1 GUI.

### 2. Introduction

The details on which objects and attributes are collected by the zOS DLA can be found in the Appendix C of the Discovery Library Adapter for zOS Version 3 Release 1 User's Guide and Reference:

http://publib.boulder.ibm.com/infocenter/tivihelp/v10r1/topic/com.ibm.taddm.doc\_zosdla/c2365 212.pdf

In that document, the objects are grouped by area and so the same organization is used here. Each of the next sections corresponds to one area in the zOS DLA User's Guide and Reference document referenced above.

### 3. All Books

Object Name	Location in the GUI	Illustration
Process.		
ManagementSoftwareSystem	MSS Info tab of the selected Configuration Item's Details Panel	1, 2
process.Organization	Not displayed.	
net.IPAddress	In the LPAR Details Panel, click the IP Tab. The IP Address column displays this object's contents.	3
net.lpInterface	There is nothing to display for this object. This is used just as a link between the ZOS and the IPAddress objects	
	In the LPAR Details Panel, click the IP Tab. The FQDNs column displays	
net.Fqdn	this object's contents.	3
sys.ZOS.Sysplex	Inventory Summary-> Computer Systems-> Sysplex	4
core.SystemSpecificCollection	Not displayed.	

Table 1: All Books

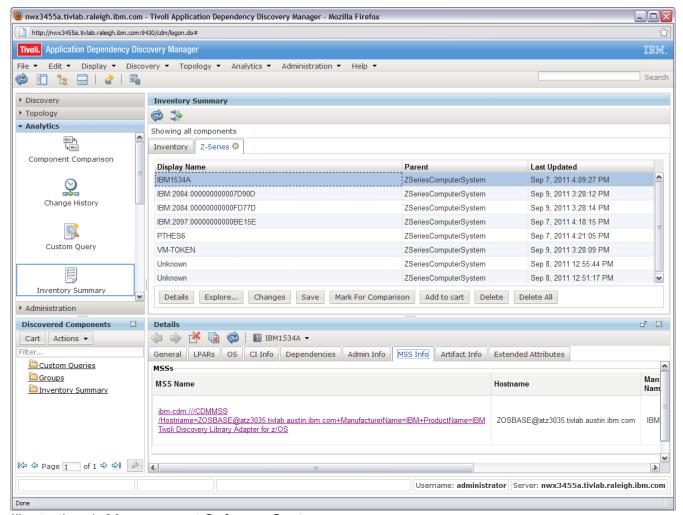

Illustration 1: Management Software System

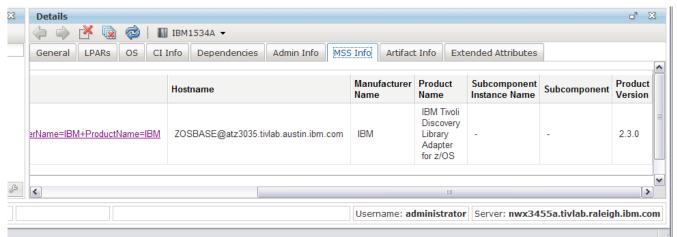

Illustration 2: Management Software System attributes

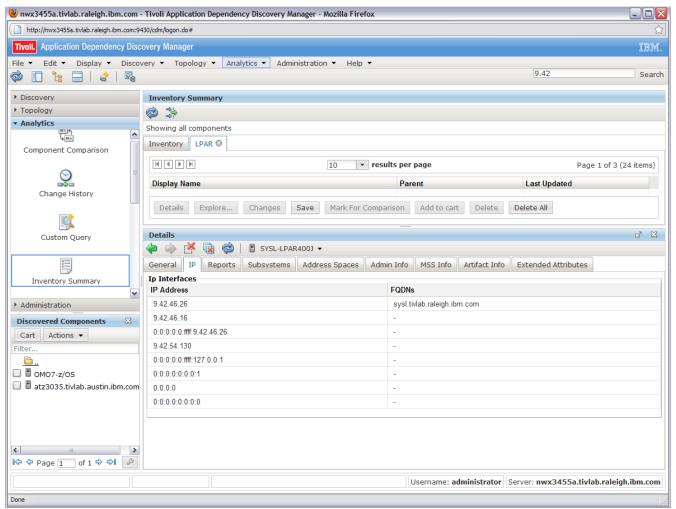

Illustration 3: IP Address and FQDN

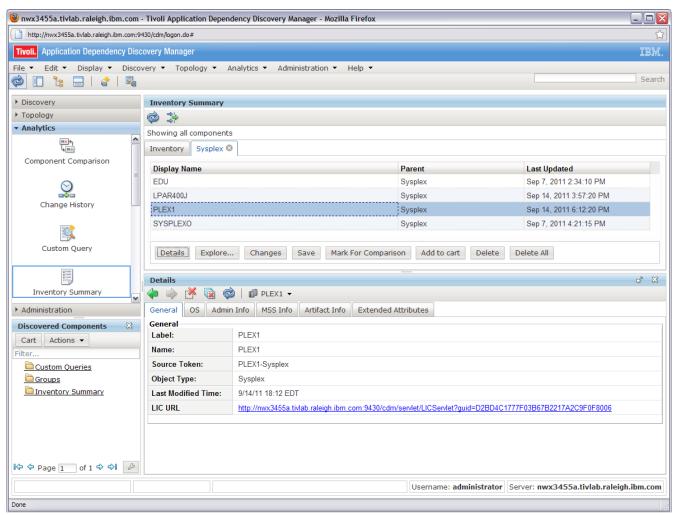

Illustration 4: Sysplex

# 4. zOS Base

Object Name	Location in the GUI	Illustration
sys.zOS.		
ZseriesComputerSystem	Inventory Summary-> Computer Systems-> zSeries	5
	Inventory Summary-> Computer Systems->LPAR. Attributes MIFId and	
sys.zOS.LPAR	LPARName are not displayed.	6
sys.zOS.ZVM	Not displayed.	
sys.zOS.ZVMGuest	Inventory Summary-> Computer Systems-> ZVMGuest.	7
	In the ZVMGuest Details Panel, click in the link inside the OS field.	
	Attributes SSCP, VersionString, ProcessingCapacity,	
sys.zOS.zOS	ProcessCapacityUnits, FQDN and Fmid are not displayed.	8
	In the ZOS Details Panel, click in the Reports tab. The table shown has	
sys.ZOS.ZReportFile	the attributes, but for more details, click in one of the rows there.	9

Table 2: zOS Base

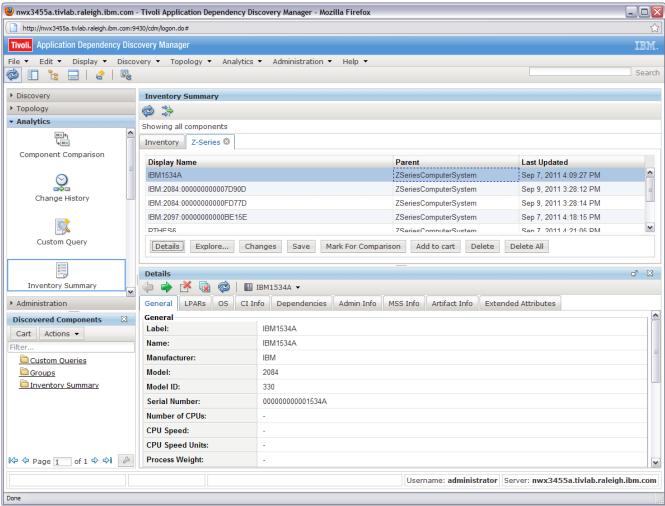

Illustration 5: zSeries Computer System

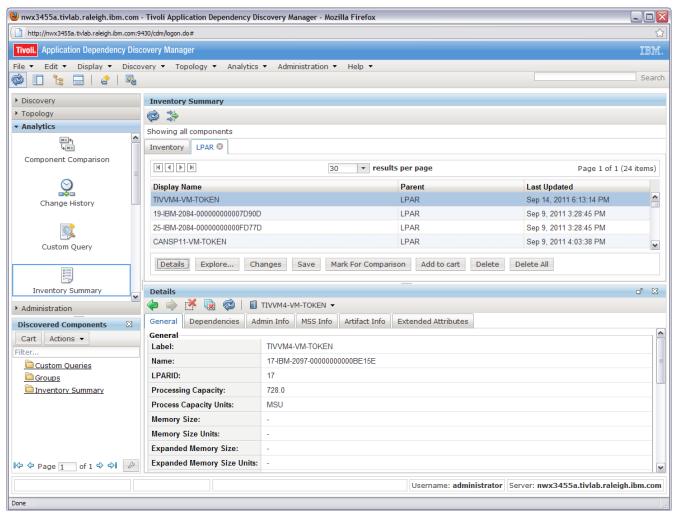

Illustration 6: LPAR

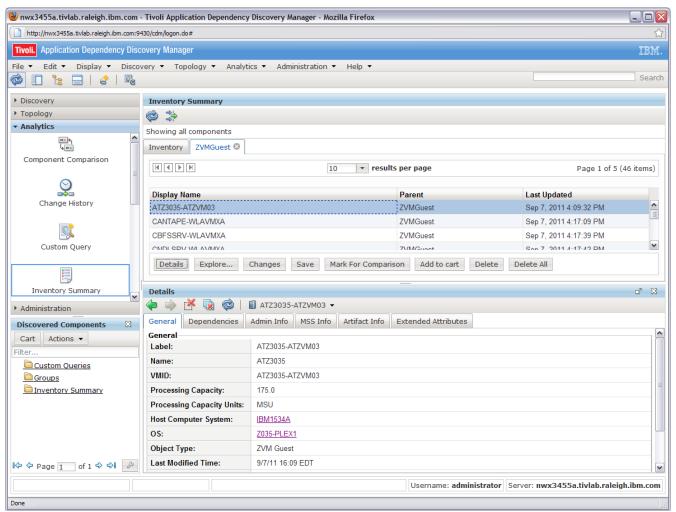

Illustration 7: zVM Guest

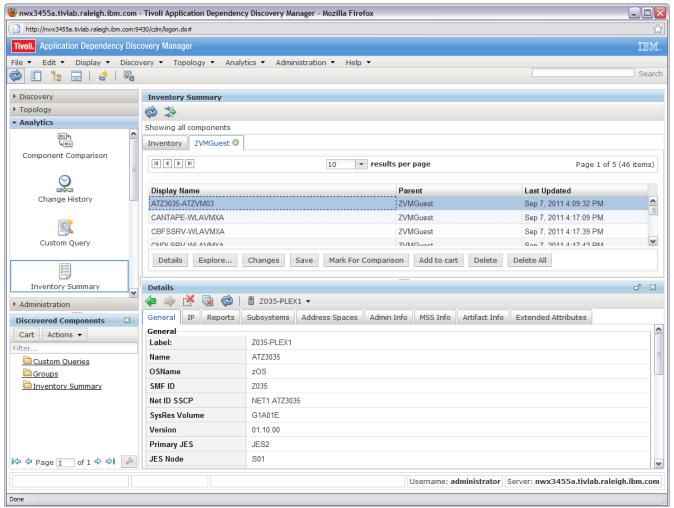

Illustration 8: zOS

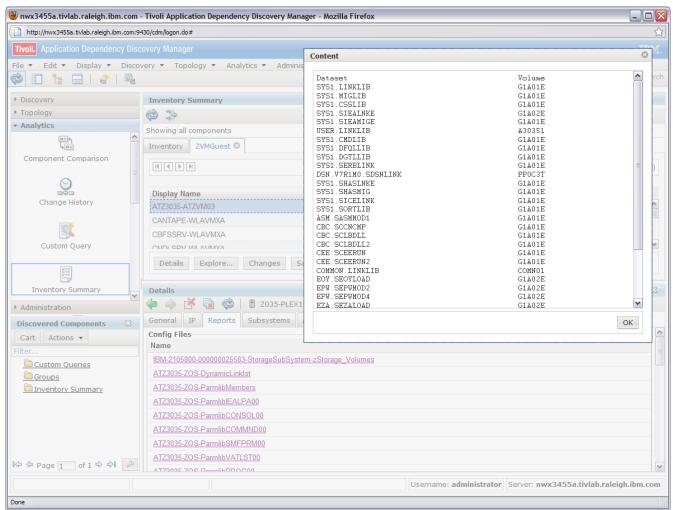

Illustration 9: z Report File

### 5. zOS Task

Object Name	Location in the GUI	Illustration
	In the ZOS Details Panel, click in the Address Spaces tab. The table shown has the attributes, but for more details, click in one of the rows	
sys.zOS.AddressSpace	there.	10
net.TcpPort	Not displayed.	
net.UdpPort	Not displayed.	
net.BindAddress	Not displayed.	
storage.StorageSubSystem	Inventory Summary-> Storage-> Storage Subsystem	11
dev.StorageVolume	In the Storage Subsystem Details Panel, click in the Volumes tab	12

Table 3: zOS Task

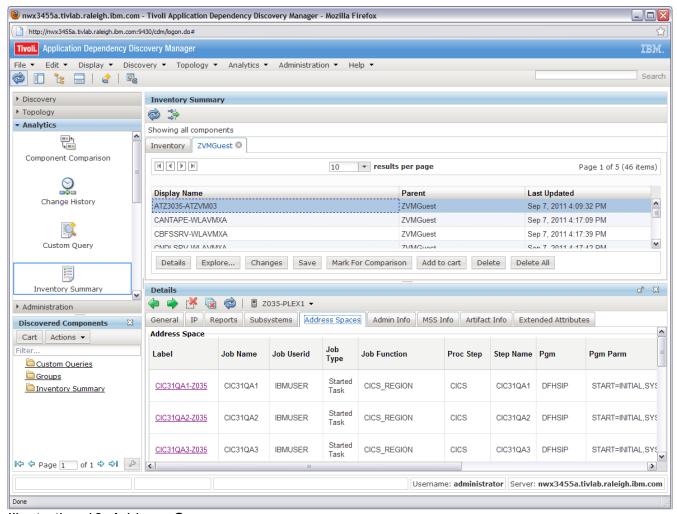

Illustration 10: Address Space

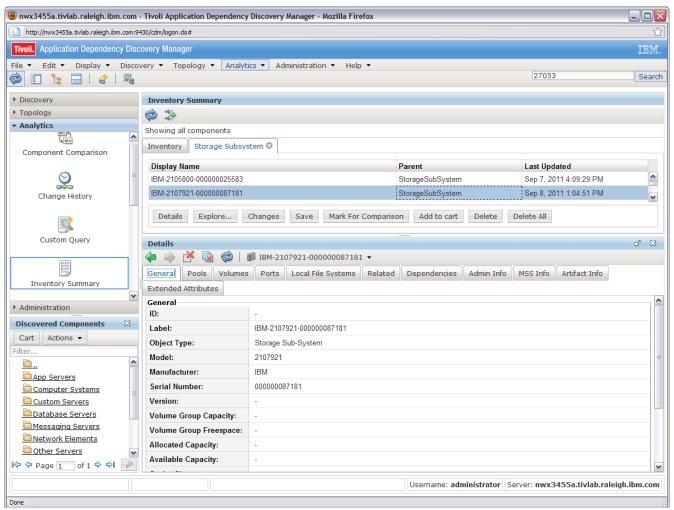

Illustration 11: Storage Subsystem

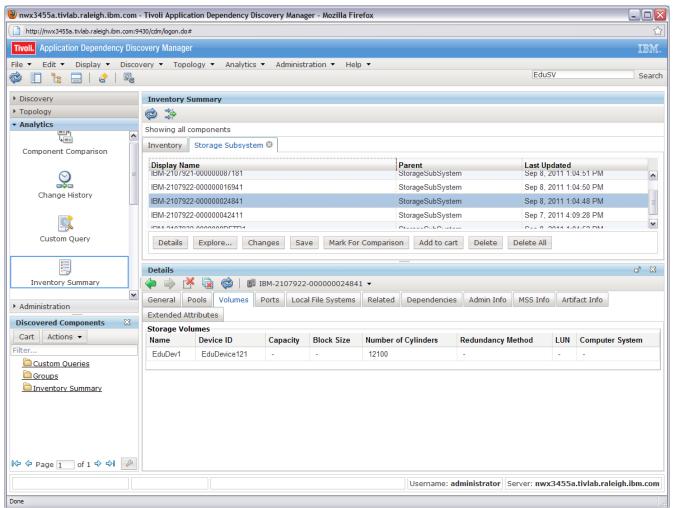

Illustration 12: Storage Volume

### 6. DB2 Subsystem

Object Name	Location in the GUI	Illustration
sys.zOS.DB2Subsystem	Inventory Summary-> Database Servers-> DB2 Subsystem	13
	Inventory Summary-> Database Servers-> DB2 Data Sharing Group.	
sys.zOS.DB2DataSharingGroup	Attributes VersionString and GroupAttachName are not displayed	14
app.db.db2.Db2Database	In the DB2 Subsystem Details Panel, click in the Databases tab	15, 16
app.db.db2.Db2TableSpace	In the DB2 Database Details Panel, click in the Table Spaces	17

Table 4: DB2 Subsystem

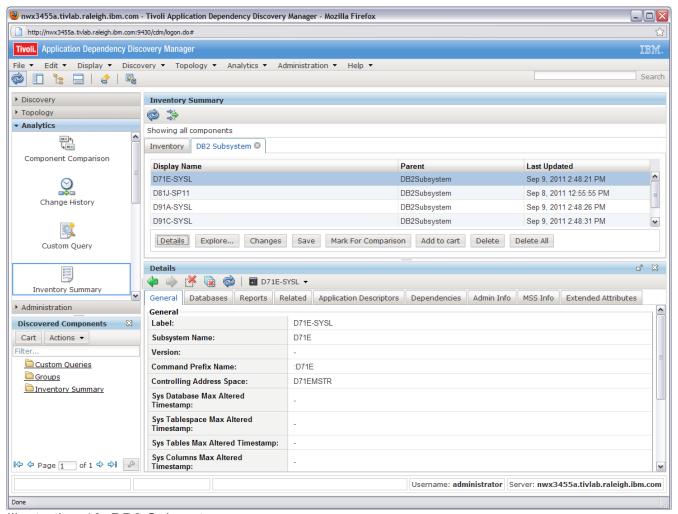

Illustration 13: DB2 Subsystem

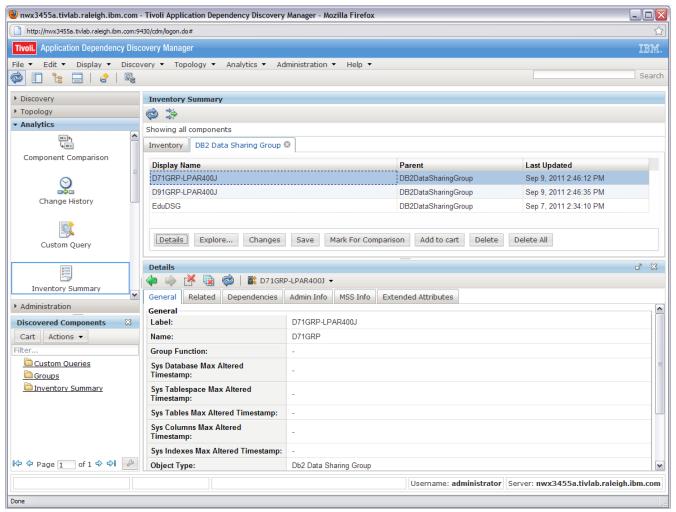

Illustration 14: DB2 Data Sharing Group

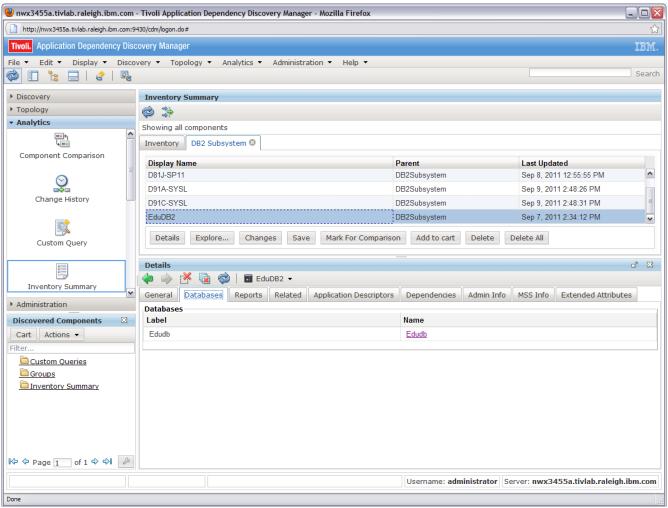

Illustration 15: Database

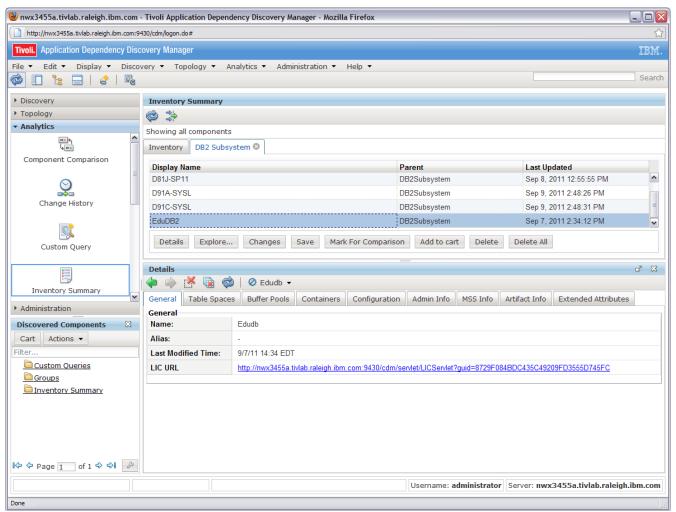

Illustration 16: Database attributes

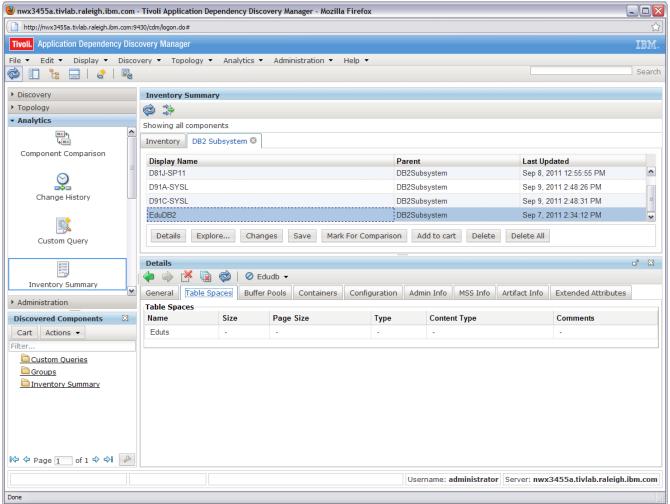

Illustration 17: Table Space

### 7. IMS Subsystem

Object Name	Location in the GUI	Illustration
sys.zOS.IMSSubsystem	Inventory Summary-> Other Servers-> IMS Subsystem	18
sys.zOS.IMSSysplexGroup	Inventory Summary-> Other Servers-> IMS Sysplex Group	19
	In the IMS Subsystem Details Panel, click the Reports tab. Click the	
sys.zOS.IMSTransaction	IMSSubsystem-Transactions link.	20
	In the IMS Subsystem Details Panel, click the Reports tab. Click the	
sys.zOS.IMSProgram	IMSSubsystem-Programs link.	20
	In the IMS Subsystem Details Panel, click the Reports tab. Click the	
sys.zOS.IMSDatabase	IMSSubsystem-Databases link.	20

Table 5: IMS Subsystem

In the case of IMS Transaction, IMS Program and IMS Database, the Reports are shown in place of the objects- this is default behavior, but they contain equivalent information.

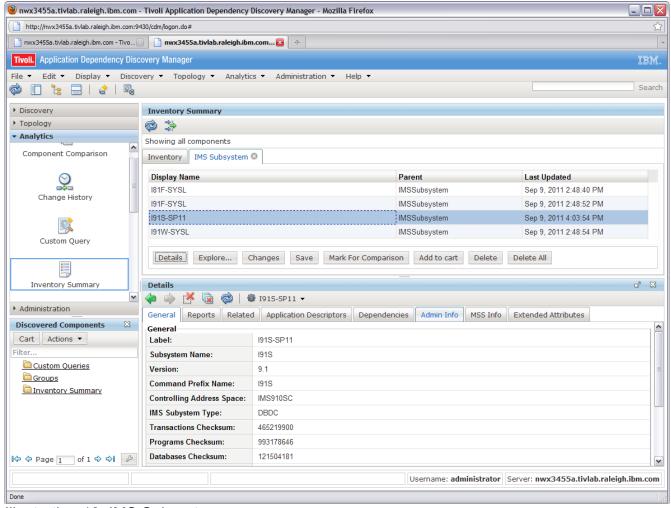

Illustration 18: IMS Subsystem

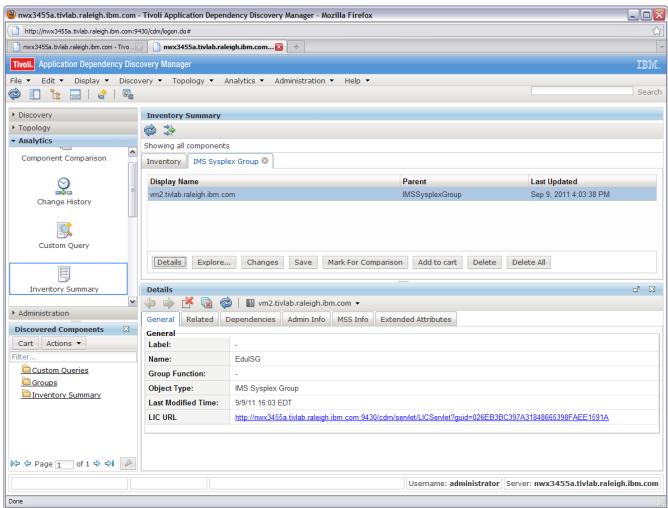

Illustration 19: Sysplex Group

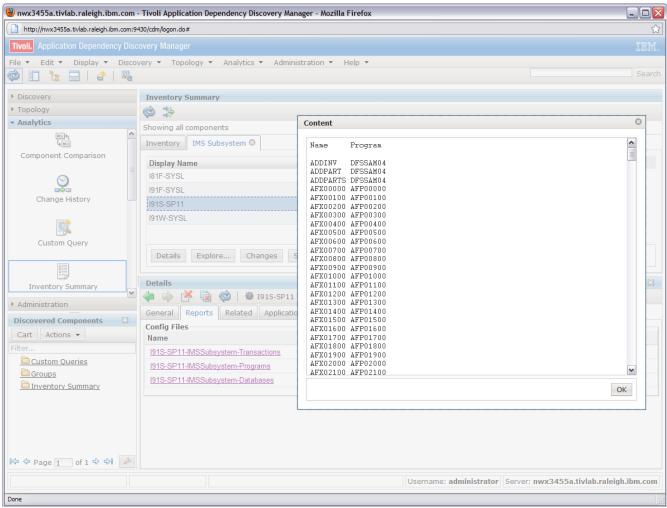

Illustration 20: Transaction, Program and Database

# 8. MQ Subsystem

Object Name	Location in the GUI	Illustration
sys.zOS.MQSubsystem	Inventory Summary-> Messaging Servers-> MQ Subsystem	21
app.messaging.mq. MQSenderChannel	In the MQ Subsystem Details Panel, click in the Channels tab and inside it, in the specific channel type.	22
app.messaging.mq. MQReceiverChannel	In the MQ Subsystem Details Panel, click in the Channels tab and inside it, in the specific channel type.	22
app.messaging.mq. MQClusterReceiverChannel	In the MQ Subsystem Details Panel, click in the Channels tab and inside it, in the specific channel type.	22
app.messaging.mq. MQClusterSenderChannel	In the MQ Subsystem Details Panel, click in the Channels tab and inside it, in the specific channel type.	22
app.messaging.mq. MQClientConnectionChannel	In the MQ Subsystem Details Panel, click in the Channels tab and inside it, in the specific channel type.	22
app.messaging.mq. MQServerConnectionChannel	In the MQ Subsystem Details Panel, click in the Channels tab and inside it, in the specific channel type.	22
app.messaging.mq. MQLocalQueue	In the MQ Subsystem Details Panel, click in the Queues tab and inside it, in the specific queue type.	23
app.messaging.mq. MQRemoteQueue	In the MQ Subsystem Details Panel, click in the Queues tab and inside it, in the specific queue type.	23
app.messaging.mq. MQAliasQueue	In the MQ Subsystem Details Panel, click in the Queues tab and inside it, in the specific queue type.	23
app.messaging.mq. MQModelQueue	In the MQ Subsystem Details Panel, click in the Queues tab and inside it, in the specific queue type.	23
app.messaging.mq. MQNameList	In the MQ Subsystem Details Panel, click in the Other tab and inside it, in the specific type.	24
app.messaging.mq.MQProcess	In the MQ Subsystem Details Panel, click in the Other tab and inside it, in the specific type.	24
app.messaging.mq.MQAuthInfo	In the MQ Subsystem Details Panel, click in the Other tab and inside it, in the specific type.	24
app.messaging.mq.	Not displayed.	
MQBufferPool app.messaging.mq.MQPageSet	In the MQ Subsystem Details Panel, click in the Other tab and inside it, in the specific type.	24
app.messaging.mq.	In the MQ Subsystem Details Panel, click in the Other tab and inside it, in the specific type.	24

Table 6: MQ Subsystem

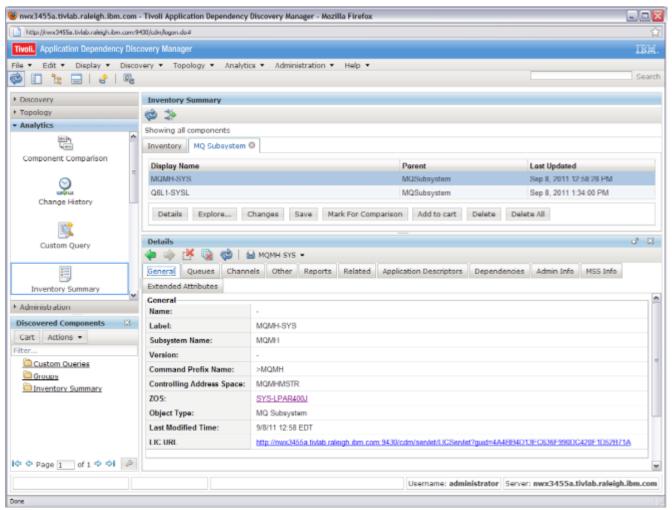

Illustration 21: MQ Subsystem

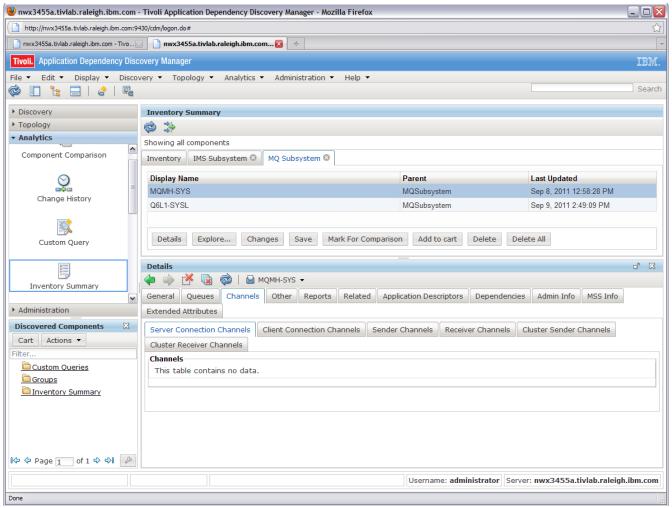

Illustration 22: Server Connection Channel

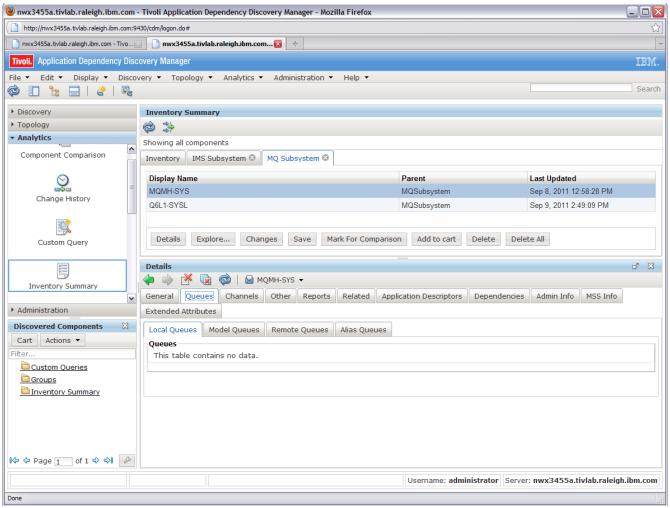

Illustration 23: Local Queue

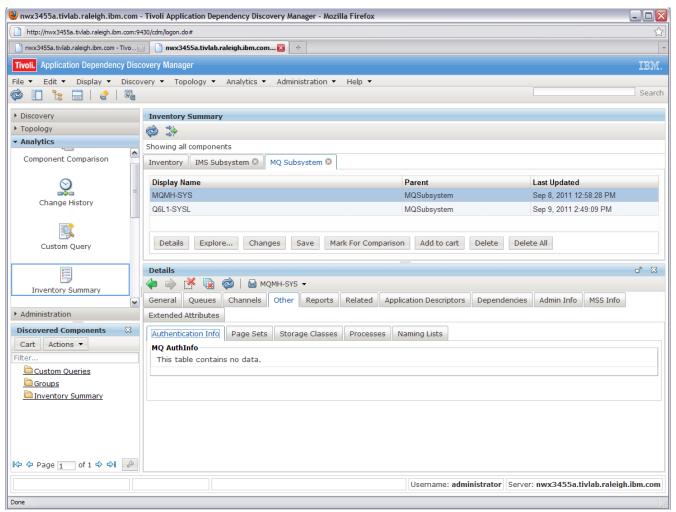

Illustration 24: Authentication Info

## 9. CICS Region

Object Name	Location in the GUI	Illustration
sys.zOS.CICSRegion	Inventory Summary-> Other servers-> CICS Region	25
	In the CICS Region Details Panel, click in the Reports tab. Click the	
sys.zOS.CICSTransaction	CICSRegion-Transactions link.	26
	In the CICS Region Details Panel, click in the Reports tab. Click the	
sys.zOS.CICSProgram	CICSRegion-Programs link.	26
	In the CICS Region Details Panel, click in the Reports tab. Click the	
sys.zOS.CICSFile	CICSRegion-Files link.	26

Table 7: CICS Region

In the case of CICS Transaction, CICS Program and CICS File, the Reports are shown in place of the objects- this is default behavior, but they contain equivalent information.

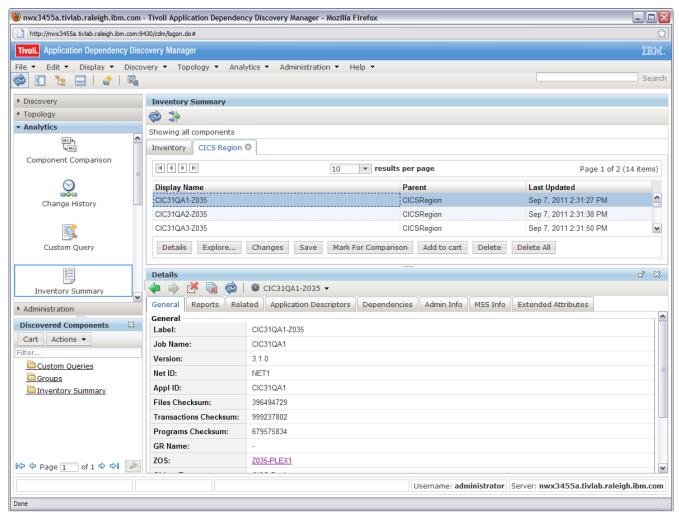

Illustration 25: CICS Region

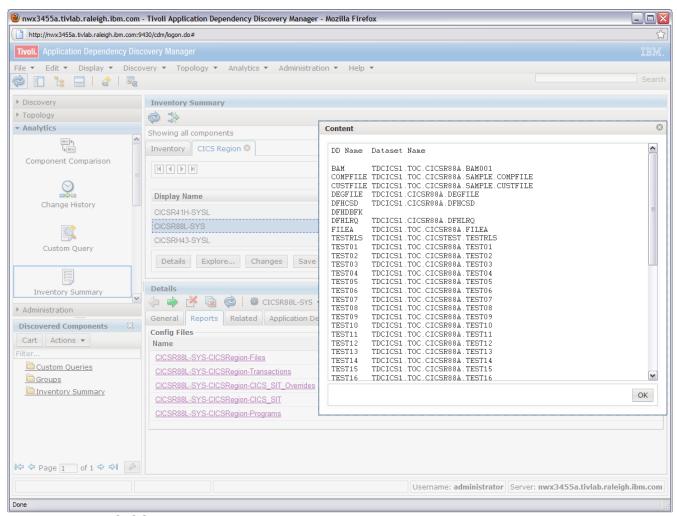

Illustration 26: CICS File

## 10. WebSphere

Object Name	Location in the GUI	Illustration
app.j2ee.websphere.		
WebSphereServer	Inventory Summary-> App Servers-> WebSphere	27
app.j2ee.websphere.		
WebSphereCell	Inventory Summary-> App Servers-> WebSphere Cell	28
app.j2ee.websphere.		
WebSphereNode	Inventory Summary-> App Servers-> WebSphere Node	29
app.j2ee.websphere.		
WebSphereNamedEndPoint	In the WebSphere Details panel, click the Named End Points tab.	30
app.ConfigFile	In the WebSphere Node Details panel, click the Config Files tab.	31
	This object is only used to link the Config File to the WebSphere Node	
core.LogicalContent	that contains it.	
app.AppDescriptor	In the WebSPhere Details Panel, click the Application Descriptors tab.	32

Table 8: WebSphere

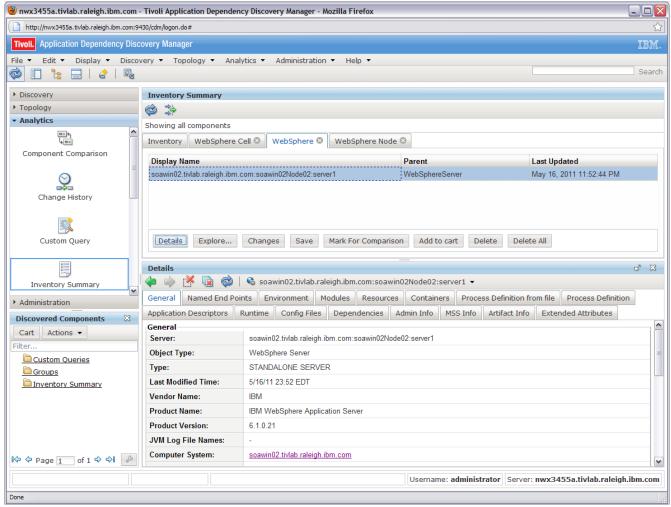

Illustration 27: WebSphere Server

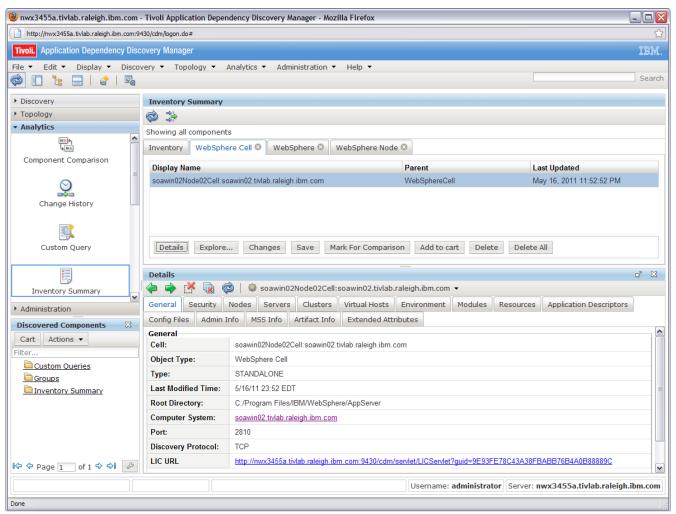

Illustration 28: WebSphere Cell

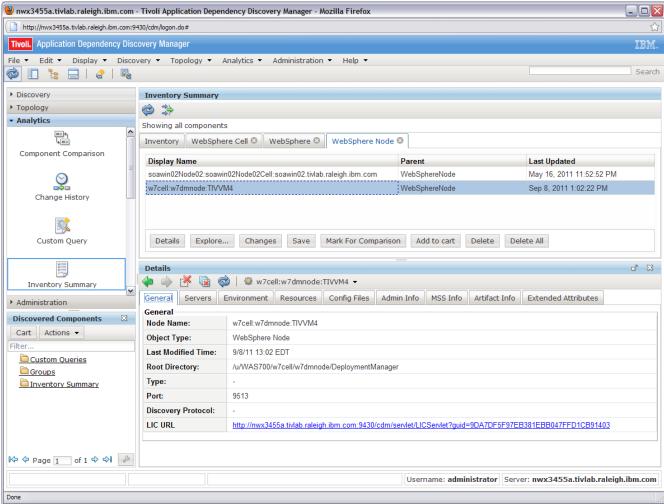

Illustration 29: WebSphere Node

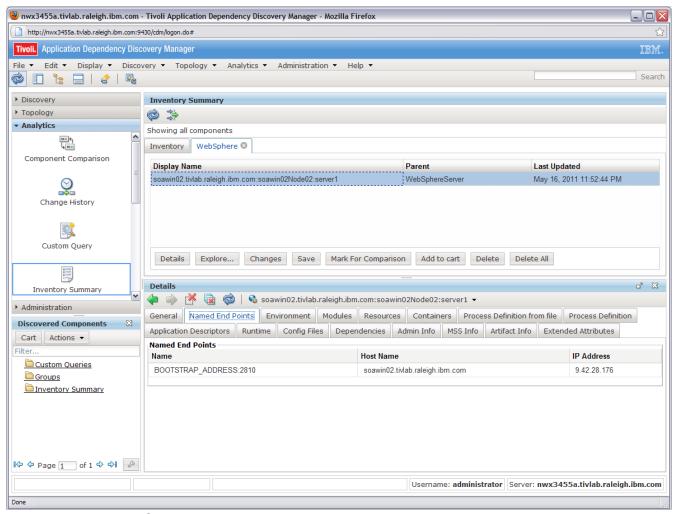

Illustration 30: WebSphere Named End Point

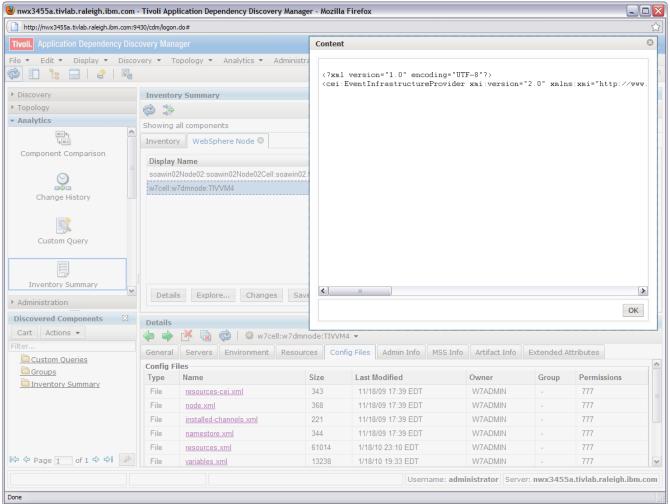

Illustration 31: Config File

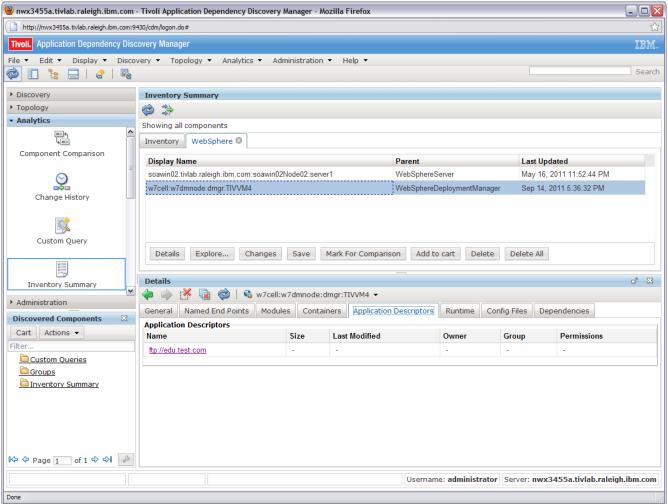

Illustration 32: Application Descriptor

### 11. Notices

This information was developed for products and services offered in the U.S.A. IBM may not offer the products, services, or features discussed in this document in other countries. Consult your local IBM representative for information on the products and services currently available in your area. Any reference to an IBM product, program, or service is not intended to state or imply that only that IBM product, program, or service may be used. Any functionally equivalent product, program, or service that does not infringe any IBM intellectual property right may be used instead. However, it is the user's responsibility to evaluate and verify the operation of any non-IBM product, program, or service.

IBM may have patents or pending patent applications covering subject matter described in this document. The furnishing of this document does not give you any license to these patents. You can send license inquiries, in writing, to:

IBM Director of Licensing IBM Corporation North Castle Drive Armonk, NY 10504-1785 U.S.A.

For license inquiries regarding double-byte (DBCS) information, contact the IBM Intellectual Property Department in your country or send inquiries, in writing, to:

Intellectual Property Licensing Legal and Intellectual Property Law IBM Japan, Ltd. 1623-14, Shimotsuruma, Yamato-shi Kanagawa 242-8502 Japan

The following paragraph does not apply to the United Kingdom or any other country where such provisions are inconsistent with local law:

INTERNATIONAL BUSINESS MACHINES CORPORATION PROVIDES THIS PUBLICATION "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

Some states do not allow disclaimer of express or implied warranties in certain transactions, therefore, this statement might not apply to you.

This information could include technical inaccuracies or typographical errors. Changes are periodically made to the information herein; these changes will be incorporated in new editions of the publication. IBM may make improvements and/or changes in the product(s) and/or the program(s) described in this publication at any time without notice.

Any references in this information to non-IBM websites are provided for convenience only and do not in any manner serve as an endorsement of those websites. The materials at those websites are not part of the materials for this IBM product and use of those websites is at your own risk.

IBM may use or distribute any of the information you supply in any way it believes appropriate without incurring any obligation to you.

Licensees of this program who wish to have information about it for the purpose of enabling: (i) the exchange of information between independently created programs and other programs (including this one) and (ii) the mutual use of the information which has been exchanged, should contact:

IBM Corporation 2Z4A/101 11400 Burnet Road Austin, TX 78758 U.S.A.

Such information may be available, subject to appropriate terms and conditions, including in some cases payment of a fee.

The licensed program described in this document and all licensed material available for it are provided by IBM under terms of the IBM Customer Agreement, IBM International Program License Agreement or any equivalent agreement between us.

Any performance data contained herein was determined in a controlled environment. Therefore, the results obtained in other operating environments may vary significantly. Some measurements may have been made on development-level systems and there is no guarantee that these measurements will be the same on generally available systems. Furthermore, some

measurement may have been estimated through extrapolation. Actual results may vary. Users of this document should verify the applicable data for their specific environment.

Information concerning non-IBM products was obtained from the suppliers of those products, their published announcements or other publicly available sources. IBM has not tested those products and cannot confirm the accuracy of performance, compatibility or any other claims related to non-IBM products. Questions on the capabilities of non-IBM products should be addressed to the suppliers of those products.

All statements regarding IBM's future direction or intent are subject to change or withdrawal without notice, and represent goals and objectives only.

This information is for planning purposes only. The information herein is subject to change before the products described become available.

This information contains examples of data and reports used in daily business operations. To illustrate them as completely as possible, the examples include the names of individuals, companies, brands, and products. All of these names are fictitious and any similarity to the names and addresses used by an actual business enterprise is entirely coincidental.

#### COPYRIGHT LICENSE:

This information contains sample application programs in source language, which illustrate programming techniques on various operating platforms. You may copy, modify, and distribute these sample programs in any form without payment to IBM, for the purposes of developing, using, marketing or distributing application programs conforming to the application programming interface for the operating platform for which the sample programs are written. These examples have not been thoroughly tested under all conditions. IBM, therefore, cannot guarantee or imply reliability, serviceability, or function of these programs. You may copy, modify, and distribute these sample programs in any form without payment to IBM for the purposes of developing, using, marketing, or distributing application programs conforming to IBM's application programming interfaces.

Each copy or any portion of these sample programs or any derivative work, must include a copyright notice as follows:
